Strengthening Local Government Service Delivery Capacity for Sustainable and Inclusive Development

This project seeks to address the challenges that are confronting the local government sector, such as the severe structural challenges which are undermining its ability to provide universally accessible basic services to the citizen. The project is a continuation of the Capacity Building of Local Government and Service Delivery project than ran between 2012 - 2015 implemented by the Ministry of Local Government, Public works and National Housing.

OBJECTIVES
The Project seeks to support the local government reforms, strengthen the capacities of the sub national governance architecture, and contribute to poverty eradication and realization of the SDGS.

SITUATION
UNCONDUCIVE POLICY/Legal FRAMEWORK
