The programme seeks to contribute to increased capacities of communities to protect development gains and achieve improved well-being outcomes in the face of shocks and stresses enabling them to contribute to the economic growth of Zimbabwe.

**EXPECTED RESULTS**

More specifically the Fund is expected to:

1. An independent evidence base built for improved utilization of evidence for resilience programming and policy making
2. Absorptive, adaptive and transformative capacities of targeted communities improved
3. Timely and cost effective response to shocks and stresses rolled out via Crisis Modifier Mechanism

**SITUATION**

- Frequent occurrence of hazards
- Food insecurity & stunting
- Reduced capacity to eradicate extreme poverty & hunger
- Humanitarian assistance alone cannot avert disaster

**ENGAGEMENT AREAS**

- Evidence Based Programming & Policy Making
  
  Create a body of evidence and build capacity for increased application of evidence-based policy making

- Crisis Modifier
  
  Setting up a risk financing mechanism which will provide appropriate, predictable, coordinated and timely response to risk and shocks from a resilience perspective

- Improve Community Capacities
  
  Improve the absorptive, adaptive and transformative capacities of at-risk communities

**MATTER OF FACT**

CURRENT IMPLEMENTATION DISTRICTS
BINGA MBIRE KARIBA UMZINGWANE UMGUZA BUBI NKAYI MWENEZI CHIREZI NYANGA BEITBRIDGE LUPANE INSIZA MATOPO MUTOKO MUDZI MBERENGWA ZVISHAVANE

TARGETED PROJECT PARTICIPANTS
• Planned to reach a total of 830,000 project participants in 305 wards of 18 rural districts of Zimbabwe
• Vulnerable labour endowed households within at-risk communities in the identified districts
• At least 25% of the direct participants being female headed households.

HOW DO WE WORK?
• Direct implementation, Location specific, multisector and innovative resilience programming
• Incentivise alliances across traditional working relations through multi sector and multi actors partnership (through consortia)
• Potentially complementing the work of existing long term development programming and safety net initiatives
